PRESS RELEASE

FOR IMMEDIATE RELEASE

Porter Announces New 25 Year Warranty on Basketball Backstop Structures

CHAMPAIGN, IL- 9/28/2010- Porter recently introduced a new twenty five (25) year warranty on its basketball backstops. The warranty protects consumers against defects in material or factory workmanship on Porter "900" series ceiling suspended structures.

This is a significant change from the previous warranty of one year. "This new warranty emphasizes the Porter reputation for quality and workmanship, and rests on Porter's long history of over 100 years as a supplier of the finest equipment available to the athletic facility industry", said Dan Morgan, VP of Sales.

The warranty applies to the original purchaser and is limited to the backstop structure only. The backstop structure is defined as: backstop framework, attachment superstructure, clamps, hangers, and braces. A representative of Porter must inspect and verify all warranty claims. If a defect exists, Porter will arrange for the repair or replacement of the defective equipment at no charge to the original purchaser. This warranty is not retroactive and applies to new orders only.

About Porter Athletic, Inc.

Porter is recognized as the leader in the gymnasium equipment market. Porter basketball backstops have been used with confidence in countless competition games worldwide including NBA championships, The NBA All-Star Game, The NCAA Final Four Tournament, The Pan-Am Games, The Goodwill Games and The World Basketball Championship Games. Many top-ranked professional arenas and major universities, as well as countless local schools, park districts and YMCAs around the world have installed Porter backstops to provide only the finest equipment for the facilities.
