

The unique design of the Porter 1735 provides exceptional stability and backboard support. A tension spring system controls folding for effortless operation and is concealed inside the unit for safety and clean appearance. The minimally sized base provides substantial stability and maximum floor space to assist in game management. Porter Center-Strut® system provides clean design while ensuring shatterproof glass backboards. Available in 8' (01735-800) and 10'8" (01735-108) extensions for maximum clearance and optimal player safety. Meets NCAA and FIBA requirements.
